## WORK EXPERIENCE

### Junior Developer | November 2024 - Present

HRM Group

- Led front-end development of the main project from scratch using Next.js, TypeScript, Tailwind, SCSS, Ant Design, translating Figma designs into responsive interfaces.
- Implemented back-end features using Java Spring Boot, enhancing data flow and system reliability.
- Contributed to two additional projects by developing reusable Next.js components and improving the data layer.
- Mentored a junior intern, providing guidance and creating concise internal documentation to accelerate onboarding.
- Collaborated cross-functionally with designers and developers to ensure high-quality, production-ready solutions.

### Full Stack Developer | February 2025 - March 2025

Sacith s.r.l.

- Led end-to-end development of a showcase website / digital product catalog, including requirement analysis, client communication, Figma design, front-end development (PHP, HTML, Tailwind, JS), SQL database, hosting setup, and internal product dashboard.
- Applied SEO best practices (optimized URLs, meta tags, .htaccess) and integrated Google Analytics, Tag Manager, Search Console to track performance.
- Maintained continuous client engagement, gathering feedback and validating modifications to ensure alignment with business goals.
- Delivered a scalable, maintainable solution that empowered the client to autonomously manage products and content.
